

## Candesce<sup>®</sup> Aseptic Packaging Board

---

---

### Produced at Lewiston, ID mill

*Candesce*<sup>®</sup> aseptic packaging board is a liquid packaging line designed for extended shelf life products and non-refrigerated aseptic applications. Aseptic products have found global acceptance and are typically used for juices, milk products and beverages. *Candesce* aseptic packaging is designed for product performance with the holdout properties required for sterilization. The superior strength of *Candesce* aseptic packaging is due to the 100% softwood furnish. The aseptic packaging forming process demands excellent bending and folding characteristics. *Candesce* aseptic packaging delivers these characteristics through a 3-ply construction and fiber base that yield creasing characteristics second to none. The result, quite simply, is product integrity from start to finish.

In addition to our standard uncoated products, we also offer clay-coated aseptic paperboard grades for enhanced print quality. A range of calipers is available to provide packaging for 250 ml to 1-liter (quart) volumes.

*Candesce* aseptic packaging board product qualities set it apart from the competition, and Clearwater Paper widens the gap with unequalled service. If you have any question or concern you can call our *Tech Direct* (1-877-805-8120) hotline 24 hours a day, 7 days a week. *Tech Direct* is manned by people equipped to answer paperboard questions, as well as questions about printing, forming, die cutting or other converting issues. Our Technical Service staff is comprised of experts from all areas of liquid packaging printing and manufacturing industries – they have hands-on experience and are on call to help you.

Contact your Clearwater Paper representative or 1-866-768-5282 for more information on any product or service.
