

Candesce[®] Cupstock

Produced at Lewiston, ID mill

Candesce[®] cupstock delivers superior strength, forming and sealing characteristics thanks to a 100% softwood furnish. Our cupstock is sized for performance in many modern food service items. Examples of product applications include:

- Cold Cup
- Soft drinks
- Ice cream
- Yogurt
- Hot Cup
- Coffee
- Tea
- Soups

Candesce cupstock is manufactured to ordered caliper for consistent forming roll to roll and run to run, through top lip forming, bottom sealing and sideseam sealing. The grade is offered in calipers ranging from .011” to .023”, uncoated or clay coated for superior print graphics.

Candesce cupstock can be purchased as basestock for your extrusion, or polyethylene extruded on one side (primarily for the hot drink market) or both sides (primarily for the cold drink market). Polyethylene is available in a wide range of applications starting at ½ mil in matte and mirror finishes. Flame treatment is available for printing or gluing.

Any question or concern you have can be answered by our *Tech Direct* (1-877-805-8120) hotline 24 hours a day, 7 days a week. *Tech Direct* is manned by people equipped to answer baseboard questions, as well as questions about forming, printing, slitting or other converting issues. Our Technical Service staff is comprised of personnel from all areas of cup forming and printing industries – they have hands-on experience and are available to help you in any area.

Contact your Clearwater Paper representative or call 1-866-768-5282 for more information on any product or service mentioned.
